

GEOTECHNICAL ENGINEERING

SIGRA...

...manufactures and supplies equipment

- Data Loggers
 - With radio connection
 - Suitable for multiple transducers
 - Vibrating wire
 - Frequency
 - Current Loop
 - Voltage
- Flow meters
- Piezometers
- Strain gauges
- Tilt meters
- Stress change cells

...undertakes installations

...provides automated monitoring and control services

- By radio and the mobile phone network with data management systems to handle an array of 100 loggers
 - To control operations such as pumping

...provides professional engineering services to analyse information

- Hydrogeological
- Slope stability
- Excavation stability
